

DISINFECTANTS

DACO®-SEPT – The same quick acting powerful disinfectant and deodorant as Q-SEPT but in liquid form to be sprayed with a trigger sprayer. Not quite as effective as an air freshener due to larger particle size of spray, but still does a good job. Excellent for surface disinfection of toilet seats, telephones, hospital fixtures, etc. Same Q-SEPT® fragrance with the economy of a liquid. Packaged 24 quarts per case with 2 trigger sprayers.

D-C DISINFECTANT CLEANER – An E.P.A. approved quaternary ammonium disinfectant-detergent that cleans exceptionally well. Its modern, synthetic detergent formulation contains no film-forming soaps. Excellent for cleaning conductive flooring. An excellent choice for kitchens where both grease removal and disinfection are desired. Use two ounces per gallon. Packaged 4 – 1 gallon jugs per case, 5 gal. pails, 30 and 55 gallon drums.

HOSPITAL DISINFECTANT DEODORANT, SSS – An aerosol that disinfects and deodorizes at the press of a button. Use anywhere bacteria can cause danger of infection, as a surface disinfectant or space deodorant. A non-selective odor suppresser with a delightful fragrance. Packaged 12 - 16½ oz. cans per case.

Q-SEPT® – A disinfectant and deodorant hospital-type aerosol. Tuberculocidal - Fungicidal - Bactericidal - Staphylocidal. Its quick drying ability makes it ideal for many surface disinfection applications such as toilet seats, bowling shoes, telephones, light switches, wash basins, hospital laundry chutes, refuse cans, urinals, etc. Its finely divided spray particles provide for instant and complete deodorization of all types of odors. Pleasant fragrance. Packaged 12 - 20 ounce aerosols per case.

VIRO-STAT – Hospital grade disinfectant-deodorant is an aerosol spray. Viricidal (including HIV-1 and Herpes Simplex 1 and 2), Tuberculocidal, Fungicidal, Bactericidal, Pseudomonocidal, and Staphylocidal. Has a very pleasant country jasmine scent unlike many disinfectants of this type. Packaged 12 - 20 oz. aerosols per case.

WINTERFECT I – For many years our most popular disinfectant and deodorant. In addition to obvious uses such as restrooms, where it is ideal, it is being used in dog kennels, dog pounds, veterinary hospitals, stables, mink farms and wherever there is a difficult odor to control. It also deodorizes many cutting fluids and coolants. Refreshing, unique winter-green fragrance. Use dilution is 2 oz. per gallon for General Disinfection, 3 oz. per gallon for Hospital Disinfection and ½ oz. per gallon fungicidal for controlling athlete's foot. Packed 4 – 1 gallon per case and 55 gallon drums.

NEUTRA-STAT® DISINFECTANT SERIES

*Check with us regarding availability/
product registration status in your state.*

A new generation of five compatible quaternary ammonium compound disinfectant-cleaners formulated especially for their user-friendly qualities. Use for cleaning and disinfecting areas where disease and odor-causing germs may be a problem. Neutra-Stat® is effective against a wide range of organisms including HIV-1 and Herpes I and II. Neutra-Stat® 64 and 128 will not attack floor finishes. Neutra-Stat® HD is a very good cleaner. All have pleasant fragrances. The low-level formulations are for use at 2 or 1 ounce per gallon or ready-to-use. Neutra-Stat® TB is a ready-to-use product effective against TB, making it an EPA approved high level disinfectant. Dilutable products pack-aged 4 – 1 gallon per case. Ready-to-use products packaged 12 quarts per case with two sprayers. Neutra-Stat® 64 is also available in 55 gallon drums.
